

The Dean Law Firm, PLLC

Appellate Law

Julia Dean is not your typical lawyer. She opened her law firm to provide a different kind of legal experience for her clients. She is committed to providing excellent legal work in the context of a caring environment. Dean comments, "When my clients come through the door, I want them to know their concerns are being heard and when they leave, I want them to know peace of mind." Her work is unique, with an emphasis in both civil appeals and estate planning. Dean states, "My practice is not the characteristic duo for an attorney, but I wanted a legal practice that incorporated an intellectual challenge with my values of caring for people."

Recognized for her legal work in civil appeals, Ms. Dean handles all aspects of the case on appeal, having successfully argued in both the federal and state courts. Dean credits her litigation background and delving deep into legal research for her ability to best position her clients on appeal.

The other side of Ms. Dean's practice involves estate planning and probate, including complex tax-planned trusts, wills, special needs planning and charitable gift planning. Dean believes that being able to assist a client in leaving a thoughtful legacy for their families, friends and charities is a privilege.
